

WISNU ANDIKA

wisnuandika104@gmail.com | linkedin.com/in/wisnuandika | https://wisnuandikaportfolio.framer.website/

Informatics graduate with a foundation in web and mobile development gained through an internship, freelance projects, and academic coursework. Adaptable with an ability to learn new systems and a commitment to technical standards. Seeking opportunities to contribute and gain experience in the software development field.

EDUCATION

Universitas Pembangunan Nasional "Veteran" Jakarta

Jakarta

Bachelor of Informatics | GPA: 3.92/4.00

Aug. 2021 - Aug. 2025

- Acquired comprehensive knowledge in **computer science fundamentals**, from operating systems to network architecture. Specialized in **advanced software engineering** with a primary focus on **scalable web and Android applications**, **service-oriented architecture (SOA)**, and modern tech stacks.

EXPERIENCE

Dahono Consulting Agency

Jakarta | Remote

Web/App Developer Intern (Program Pemagangan Nasional)

Nov. 2025 - May. 2026

- Supported the core engineering team as a **Frontend Developer** by leveraging **Next.js** to take ownership of **UI slicing** and **SEO optimization** for a building materials e-commerce platform.
- Accelerated the development of the platform by slicing Figma designs into **9 fully responsive web pages**.
- Boosted search engine visibility and site architecture by implementing **technical SEO configurations**, achieving a **green Lighthouse SEO score of 95+**.

Freelance

Remote

Web Developer

Aug. 2025 - Nov. 2025

- Engineered **3 full-stack client web applications** (a library system and 2 e-commerce platforms) using **Laravel**.
- Delivered **end-to-end systems** by developing both functional user interfaces and **secure backend architectures**.
- Streamlined administrative workflows by building **custom CMS panels** for inventory and transaction management.
- Ensured reliable performance by executing structured **manual black-box testing** scenarios across all 3 projects.

RECENT PROJECT

Avimagrafika Company Profile | avimagrafika.com

Freelance Project

Avimagrafika

Mar. 2026 - Apr. 2026

- Delivered a **4-page responsive** company profile website utilizing **Next.js**.
- Achieved a **perfect 100 Lighthouse SEO score** and integrated **Google Search Console** for site indexing.
- Deployed the platform to production via **Vercel** with **custom domain** configuration.

ACHIEVEMENTS

Awarded Research Grant (PKM-KC) – Team Leader

Jakarta

Ministry of Education, Culture, Research, and Technology

Sept. 2023 - Aug. 2024

- Secured **national research funding** as **Team Leader** by spearheading the end-to-end development of TeaGuard, a mobile app integrated with a **machine learning detection system** for tea plant pests.

2nd Place Winner – 37th PIMNAS Digital Poster Competition

Surabaya

Airlangga University

Sept. 2023 - Oct. 2024

- Achieved **2nd place nationally** in the PKM-KC category by effectively communicating the technical architecture and societal impact of the TeaGuard project through a **comprehensive digital poster**.
